

PH-HPS SET

Product Code: 10068 + 619-20-049

Short Description

High power LED spots

2-arms, flexible

RK-06A/RK-06AE/RK-06F stand adapter

Control unit: brightness and on/off

Description

The Photonic HPS-set is composed of the LED Hi-Power Spot 2-arm and the RK-06A/RK-06AE/RK-06F adapters.

This spot is used for direct attachment to microscope stands, like the Dino-Lite RK-06A/RK-06AE/RK-06F stands. As it is mounted on the stand, it is perfect for use in small spaces. The brightness can be controlled by the compact control unit. Furthermore you can switch on/off the 2-arms individually. The flexible arms can be easily adjusted to provide the best angle of illumination to your sample.

** All other Photonic items are also available through Dino-Lite Europe.*
